1. The preliminary amendment filed July 11, 2005 has been entered.
2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the foreign application for patent or inventor's certificate on which priority is claimed pursuant to 37 CFR 1.55, and any foreign application having a filing date before that of the application on which priority is claimed, by specifying the application number, country, day, month and year of its filing.

The supplemental oath filed July 8, 2005 lists the priority application filing date as July 17, 2002 instead of July 14, 2002.

3. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth above. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.
4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In the specification on page 4, line 14 " photograph on page " has been replaced with - - - the 4<sup>th</sup> photograph (dated Nov. 1998) from the top in the second column located by clicking on the photographic link found at the above website - - -.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references show water samplers, multiple sample collectors and/or were cited in the PCT search report.
6. Claims 1-17 have been allowed.
7. The following is an examiner's statement of reasons for allowance: none of the prior art of record showed or would have made obvious a bed water sampling device for simultaneously collecting a plurality of water samples from the lowest water column at different levels above a water bed using a plurality of sampling containers mounted in a horizontal orientation in a vertical arrangement in combination with other elements combined and interacting as set forth in claims 1 or 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tom Noland whose telephone number is (571) 272-2202. The examiner can normally be reached on weekdays from 9:00 to 5:30.
